DETAILED ACTION

1. Applicant's amendment and remarks filed February 04, 2005 have been fully considered and are persuasive.
2. A copy of an initialized IDS (PTO-1449) filed 6/2/2004 is accompanied herein.
3. Claims 46, 52, 57, 62, 67, 72, and 91-101 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding claim 46, the closest cite prior art (US Patent No. 6,229,926 to Chui et al.) fails to teach the features of: "wherein each adjacent pixel to be attached to the object tile is multiplied by a weight function according to a distance from the objective tile, wherein each of the object tiles is attached the adjacent pixel by the adjacent pixel adding portion". Dependent claims 52, 57, 62, 67, and 72 are also allowed for the same reasons as above.

Regarding claims 91, 95, and 99-100, the closest cited prior art (Shapiro US Patent No. 5,563,960) does not teach or suggest management information including information for specifying a memory location of the coded information corresponding to each tile or resolution and information for managing and identifying each tile or resolution. Dependent claims 92-94, 96-98 and 101 are also allowed for the same reasons as above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2621
